

TCL2019

International Conference on Textile Coating and Laminating

Novotel Berlin Am Tiergarten
Berlin, Germany
14-15 March 2019

REGISTER NOW

To hear practical presentations on: new solutions for a better environment and sustainability in the textile coating and laminating industry; smart & intelligent coatings for high-performance applications; innovations in materials, processes and production techniques *and much more*. See the programme inside for details.

BOOKING INFORMATION

Book online at www.technical-textiles.online/TCL or via the booking form below.

TCL2019: *the* practical, industry-oriented conference

Responses to previous TCL:

- *“Excellent speakers for an agenda focusing on innovation and future-oriented topics, high-calibre delegates from all over the world, an interactive, contemporary conference format in a perfect work environment.”*
- *“I personally found the speakers to be of a high calibre and we have made a number of new contacts in our industry.”*
- *“The conference was very well organised from start to finish... I would definitely consider attending this event again.”*
- *“I found the presentations very informative and delivered in a professional manner which led onto interesting discussions. It was a great opportunity to catch up with colleagues from the industry and I also made a number of excellent new contacts over the 2 days.”*

96% rated the conference good or excellent

Over 27 years, the International Conference on Textile Coating and Laminating has built a reputation as a vital meeting place for the worldwide coating and laminating industry. TCL is a venue for practical presentations focusing on the latest developments in materials, processes, machinery, and applications and how this will shape the future of the industry.

Supplemented by intensive discussion sessions actively led by the session chairs, TCL is the conference for senior managerial, technical, research and marketing staff from the international textile coating and laminating industry.

The conference will include presentations on:

- Sustainability: how materials are adapting to meet new environmental demands;
- Coating & laminating techniques to develop smart & intelligent textiles;
- Innovations in processes and production;
- The latest in materials development for novel applications to boost the industry, and much more.

Who should attend

- Managing Directors, CEOs, Presidents and other senior managers of companies involved with the textile coating and laminating industry, whether suppliers, processors, or end users.
- Technical Directors and Managers concerned with the latest developments in fibres, fabrics, adhesives, films, polymers, coating and laminating techniques, converting, etc.
- Marketing Directors and Managers who need to keep up to date with market developments and the prospects for coated and laminated textiles.
- Industry Analysts and others concerned with the future of the global textiles coating and laminating industry.

Venue: The venue for the 2019 meeting is the 4-star Hotel Novotel Berlin Am Tiergarten, Berlin, Germany, on 14-15 March 2019. The hotel is ideally located in the centre of the capital by the Tiergarten S-Bahn station. A variety of attractions and shopping centres are close by, including the zoo and the Kudamm with the Memorial Church. The hotel's location makes it ideal for exploring historical Berlin and the Brandenburg Gate. The lecture theatre is a modern and comfortable location for presentations, discussions and networking. A special discounted conference room rate has been negotiated (please visit conference website www.technical-textiles.online/TCL for hotel booking form).

Travel information: Tegel Airport is a 15 minute drive away.

Conference director: William C (Bill) Smith has over 49 years' involvement in the textile industry in product and market development, sales, marketing and market management and consultancy.

Bill Smith founded Industrial Textiles Associates (ITA) in 1986 and was the founder and developer of the Textiles Coating and Laminating conference series.

Conference organizers: International Newsletters Ltd is the world's principal publisher of information about textiles technology. The company runs the TNet web service as well as publishing Technical Textiles International magazine and four specialized newsletters, Advances in Textiles Technology, Medical Textiles, Smart Textiles and Nanotechnology, and Advanced Composites Bulletin.

PROGRAMME

DAY ONE: Thursday 14 March 2019

Keynote presentation:

Unpicking the threads of Brexit

David McGowan, Counsel, Dentons UK & Middle East LLP (UK) followed by Q&A

SESSION ONE: COATING AND LAMINATING AND THE ENVIRONMENT

Sustainability - how consumers' opinions, government regulations and pressure groups are driving manufacturers' strategies

Martin Cieslik, Head of Marketing and Business Development, Hohenstein Laboratories GmbH & Co KG (Germany)

Water-free finishing, coating and lamination - a case study of sustainable manufacturing

Gary S. Selwyn, CEO, Green Theme Technologies (USA)

E-mobility and its key impacts on the coated textiles market

Silke Brand-Kirsch, Executive Partner, Schlegel & Partners (Germany)

Featured presentation:

How to respond when competitors steal your ideas or when they accuse you of the same

Deborah Maxwell, Patent Attorney, Potter Clarkson (UK) followed by Q&A

Graphene and 2D materials: enabling wearable and textile electronics *Felice Torrisi, Lecturer in Graphene Technology, Cambridge Graphene Centre, University of Cambridge (UK) followed by Q&A*

SESSION TWO: DEVELOPMENTS IN PRODUCTION TECHNOLOGIES

Extrusion coating for textiles: a growing technology *George W. Kellie, CEO, Kellie Technologies (UK)*

Coating and laminating as a means to creating more durable, more functional textile components for automobiles *Matthew Williams, Director of Business Development, and Samit Sadavarte, Advanced R&D Manager, Haartz Corp (USA)*

Modular coating as an integrated part of the Internet of Things and the first step to a fully automated stenter *Jürgen Hanel, Director Technical Textiles, Monforts Textilmaschinen (Germany)*

A novel technology for measuring the basis weights of coated technical textiles *Noël Deferm, General Manager, Hammer-IMS nv (Belgium)*

Functional and breathable textile coatings based on hot-melt technology *Ralf Lungwitz, Researcher, SaxonTextile Research Institute (Germany)*

DAY TWO: Friday 15 March 2019

Keynote presentation:

The impacts of changes in attitudes to global trade and tariffs on the textile machinery industry

Elgar Straub, Managing Director, VDMA Textile Care, Fabric and Leather Technologies (Germany) followed by Q&A

SESSION THREE: DEVELOPING SMART AND INTELLIGENT TEXTILES

Applying printing and coating technologies to develop smart textiles

Anne Schwarz-Pfeiffer, Researcher, Hochschule Niederrhein (Germany)

Advanced applications of phase-change materials *Bob Brookins, CEO, Alexium International (USA)*

Novel mechanisms for delivering thermoregulation *John Ellis, CTO, Devan (UK)*

Responsive textiles coatings

Myriam Vanneste, R&D Manager, Centexbel (Belgium)

SESSION FOUR: PRODUCT INNOVATIONS AND APPLICATIONS

New applications for dry impregnation technology *Jérôme Ville, CEO, Fibroline SA (France)*

Functionalising textiles with advanced particles *Matthew Tipper, Business Director, NIRI (UK)*

Innovative binder-free antimicrobial coatings for washable textiles

Patrick Cronin, Technical Director, Mica NanoTech Ltd (Ireland)

Coating with nanofibres

Vladimir Rassushin, Chief Scientific Officer, Nanopharma (Czech Republic)

Chaired panel discussions will follow each session.

The programme is subject to amendment and additions.
